What's Behind a Spence Door?

The name Spence Doors has been synonymous with high quality workmanship since 1951. Today, Spence Doors have the experience, skilled tradespeople and leading edge technology to create competitively priced door for any and all applications.

Whether your focus is security, safety, fire and smoke control, acoustics, privacy, style, scale, sustainability, or longevity, Spence Doors delivers. Each one of our doors is individually designed and manufactured to provide an exact fit for purpose.

Specialist needs are our forte; non-standard is never a problem. Our commercial experience spans hospitals and health care, office blocks, fast food outlets, high occupancy buildings, education, industrial, correctional and defence. Our long history and experience also covers high-end and high-rise residential.

You can rely on Spence Doors with absolute confidence. Whether you're an architect, engineer, or builder, we'll bring your vision to life, overcome your complex challenges, and transform the technically though into the refreshingly simple.

Our team of skilled professionals and tradesmen adds value at every stage – providing design and technical consultancy; high quality, local manufacturing; easy installation; inspections and certifications; and full warranty support.

Spence People

We understand that good people are our greatest asset and have a first class team of people in all department. With a stable work force we are able to create strong relationships with our clients and build for the future.

Evan Herbert QLD STATE MANAGER

Spanning approximately 15 years, Evan's tenure within the building industry, particularly in the aluminium industry (including doors and windows), adds to Spence Doors' wealth of experience. Evan has managed businesses at a state level, implementing processes and systems that have lead to successful outcomes throughout his career, and brings valuable leadership qualities to the team in Queensland

Phil Hayward OPERATIONS MANAGER

Qualified sheet metal worker. Phil's responsibility is to coordinate the manufacture and delivery of pressed metal door frames, flush panel doors, fire doors, and overall responsibility for the quality control and manufacturing procedures. Phil has 18 years experience with Spence Doors covering such areas as despatch, door manufacture, frame manufacture, frame design, quality control and management of all operations.

David Crick CONTRACTS MANAGER

QBCC License (Passive Fire Protection, Fire Doors and Shutters) - Nominee Supervisor. David has over 25 years experience within the industry and leads a team of 5 Project Administrators (QLD), managing the day to day requirements of our clients. David's knowledge and ability to anticipate the client's requirements is second to none and he is widely recognised as an industry expert

Rod Allen QLD SALES MANAGER

QBCC License (Passive Fire Protection, Fire Doors and Shutters) - Nominee Supervisor. Rod has almost 30 years experience in supply of commercial building projects to the industry, including 14 years at Spence Doors, as Project Administration, Estimator, Architectural Consultant, After Sales & Certification Manager, Fire & Smoke Door Consultant & Certifier. Rod fulfils the role of QLD Sales Manager, specifically overseeing the QLD commercial tendering division; and manages the Brisbane branch and One Stop Trade division, as well as Technical Development, Specification writing, consultancy, and Queensland Marketing.

Estimation Team

The Queensland Estimating team constitutes people with trade backgrounds and years of experience in the commercial door and frame industry; offering qualified and professional tender quotations, with fit for purpose and budget aspect at the forefront.; offering everything required for a complete package.

David Kelleher INSTALLATION MANAGER

With a trade background in Cabinet-making, and experience in systems implementation, Dave joined Spence in 2007. As a Project Administrator, Dave has worked on some of the state's major hospital and infrastructure projects, and progressed to a senior position in this role. An integral part of state-of-the-art administrative and production systems at Spence; he has continued as part of the team, in keeping Spence the industry leader. Currently the Installation Manager in Queensland, Dave brings together Spence Profiling system with door, frame and hardware supply to produce the best on-site installation solutions for projects of all types and size.

Mission Statement

Spence Doors:

- Seeks to be the leading supplier of doors, pressed metal door frames and joinery to the commercial building industry.
- Are committed to recognising and understanding our customer needs and requirements to provide fit for purpose solutions and develop a mutually beneficial long term relationship.
- Personnel are dedicated and professional, committed to caring for their customer needs.
- Employees shall be rewarded fairly and equitably for effort and encouraged in their personal development to promote a stable highly-engaged and productive working environment.
- Is focused on continual improvement and setting new benchmarks for door innovation and quality through materials, people and processes.

There's a Spence door for every application

If you require doors that go beyond the scope of standard specifications, Spence Doors offer a range of special purpose doors including doors for fire separation, hospital x-ray rooms, prison security, sound studios, laboratories and clean rooms. In addition, we can work with you to add special materials, reinforcing plates, cut-out sections, hinging details, special mouldings, privacy flaps, proprietary vision panel systems, door frames and furniture to suit your particular needs.

Combining craftsmanship and technology

Spence Doors combine state-of-the-art processes and equipment with traditional craftsmanship and experience to provide the answers to even the most complex design problems. Working closely with architects, specifiers and builders and continuously developing our processes has allowed Spence Doors to remain at the forefront of door manufacturing technologies and applications.

Spence Doors has a wealth of experience in the technical aspects of door design and manufacture

So we can offer sound advice to builders and specifiers who need a non-standard product.
